

3920 Wireless Telephone

On-premise mobile communications

Overview

The Avaya 3920 wireless telephone, designed specifically for small businesses, is a wireless solution that makes it simple to respond to customer needs whenever and wherever required. The Avaya 3920 wireless telephone integrates fully with the PARTNER® Advanced Communications System and, because it provides a powerful option for users who can't always be at their desk, it increases productivity and maximizes customer service.

Utilizing next-generation digital technology (DECT 6.0), the Avaya 3920 wireless telephone offers crystal-clear, high quality voice communication. DECT, unlike other wireless technologies, uses a dedicated frequency that prevents interference from other devices and delivers increased coverage in warehouse and campus-like environments.

Capabilities

- **Roam the office/warehouse** – Employees remain completely accessible, as though at their desk, while roaming throughout the building or campus when using the Avaya 3920 wireless telephone.
- **Rapid and easy deployment** – Expand your Avaya 3920 wireless telephone deployment quickly and cost effectively in even the smallest locations without the need for

additional wiring. Optional 3920 repeaters (up to 6 per handset) make it possible to extend coverage beyond 80,000 square feet.* As many as 6 Avaya 3920 wireless handsets can be deployed on a single system to provide seamless roaming and handover across larger areas and to insure that key personnel can always be reached.

- **Next generation digital technology** – Employees communicate effectively and clearly over a broad coverage area that delivers secure, high-quality voice communication using DECT 6.0 technology.
- **Built-in speakerphone** – Extend accessibility and boost productivity using “hands-free” operation with the built-in speakerphone and headset compatibility.

Benefits

- **Increase responsiveness** – Be accessible and responsive to customers and colleagues. The Avaya 3920 wireless telephone makes employees available anytime, anywhere.
- **Improve customer service** – Calls never go unanswered. This increases customer satisfaction which can increase revenue. Caller ID appears on the 3-line, backlit LCD display enabling staff to provide personalized service to your most important customers.
- **Reduce costs** – Minimize costs while differentiating your business through new communication capabilities. The Avaya 3920 wireless telephone deployment can be expanded quickly without the need for additional wiring.
- **Optimize your investment** – Designed specifically for small businesses, the Avaya 3920 wireless telephone integrates seamlessly with your existing PARTNER® ACS systems.
