Secure, Seamless Connectivity for Remote Working - SafeMove Mobile VPN for free for six months to new customers.

How SafeMove Can Help Your Organization

Bittium SafeMove® is a software solution for managing and delivering seamless, uninterrupted and secure network connectivity to mobile devices such as smartphones, laptops and tablets that are connected to your organization's network. With SafeMove, all your employees working remotely can enjoy hassle-free, zero-click access to the best available network wherever their work takes them.

Learn more about Bittium SafeMove Mobile VPN here. <https://www.bittium.com/secure-communications-connectivity/bittium-safemove-mobile-vpn/offer>

How to Get Started

If your organization is currently struggling with remote working tools, we would like to help by offering the following:

- Free SafeMove Mobile VPN licenses for six months to all your organization's Windows and Android devices.
- Free online training to make the onboarding as easy as possible
- The only cost for your organization would be the installation fee and providing the needed servers

The offer is for new business-to-business customers. More detailed terms and conditions are available here.

Offer Terms and Conditions

This is an offer ("Offer") of Bittium SafeMove Ltd ("Bittium") to provide Bittium's new business-to-business Customers ("Customer") free Bittium SafeMove® Mobile VPN licenses for six (6) months and online onboarding training. The Offer is subject to the Terms and Conditions below.

The Offer is valid between March 17, 2020 and April 30, 2020.

The Offer is applicable only for Bittium's new business-to-business Customers, who are either private or public organizations. The Offer does not apply to consumers.

Bittium SafeMove Mobile VPN supports the following clients and servers:

- Supported clients (Customer-owned): Windows and Android (confirm details with Bittium)
- Supported servers (Customer-owned):
 - °Virtualized server appliance (VMware)
 - °Red Hat Enterprise Linux 7 certified server hardware
 - °Private clouds

The Offer does not include servers, which need to be provided by the Customer, or the installation fee. Typical installation fee for the Customer starts from €3,900. Installation will be performed remotely given the current travel restrictions.

The Offer is subject to availability, and priority will be given to Customers working towards relieving COVID-19 caused challenges. Any orders based on this Offer shall be subject to a separate agreement between the Customer and Bittium, in which the details of the delivery of the SafeMove® Mobile VPN licenses and online onboarding training to the Customer, among other terms, will be defined.

Bittium reserves the right to suspend or terminate this Offer or alter the Terms and Conditions stated herein at any time without prior notice.

These Terms and Conditions are governed by and constructed in accordance with the laws of Finland and the exclusive jurisdiction of the courts of Finland shall apply.
