Beatrice Foods Co. to Partner with Anna Carter's The Seed Lady ACT SLOW MINISTRIES

PHOENIX -- With the unprecedented Coronavirus Disease (COVID-19), and the domino effect that it is having on millions of people across the planet, Beatrice is working diligently, and thoughtfully to assist in using our select vendors to help fill the gap in shelf-stable food products, as well as disinfectant and antiseptic supplies. As with retailers, and distributing companies, hand sanitizing products, as well as certain soap inventories have been completely depleted, and our Beatrice Distribution Division primarily sells Purell, but we have been told that there is no indication of when inventory will be made available to even serve our normal customer base that purchases from us.

Beatrice will immediately be working with Ms. Anna Marie Carter, and the ACT SLOW MINISTRIES from Los Angeles, California to help procure what supplies are needed in the communities she works with. Ms. Anna Marie Carter' contacts, which extend nationally, will help facilitate in a careful coordination of where Beatrice can collaborate in the most efficient way in order to get much needed food, and other supplies to those that have been hit hard by the unnecessary, and selfish hoarding, which leaves senior citizens, and the very young in a vulnerable situation.

Beatrice prefers to work with non-profits, such as churches during this crisis, as profiteering has escalated beyond what is normal, and it is not known how long this crisis will last for. So, it is imperative that Co-op's be established in order to help fill in the gaps that traditional grocery stores are having a difficult time coping with. Beatrice is currently working not only with ACT SLOW MINISTRIES, but Arizona churches as to help serve the local communities here as well.
