Beatrice Enters Into Definitive Agreement to Resell Bittium Tough Mobile C Communication Solution to Business Customers

PHOENIX -- Beatrice Technologies, Inc. and Bittium USA Inc. entered into a reseller agreement whereas Beatrice will offer the Bittium Tough Mobile C device, which is considered the most secure smart phone. Beatrice will offer the phones in conjunction with our dedicated secure hosted communication solution which enables point-to-point encrypted messaging; voice, video, text, email, and web browsing.

DeWitt Hoopes, President of Beatrice Technologies, Inc. said, "After carefully researching various mobile product manufacturers, and then subsequently testing the Bittium platform, it was decided that Bittium was not only the choice for our entire organization, but also offering this tremendous product to business customers was a must for those that really are tired of having to worry if their smart phones are secure or not." Mr. Hoopes went on to say that, "With the proliferation of smart phones in general, business customers who specifically need a locked down device that also has the option for a unique dual operating system that segregates both the public facing smart phone operating system and secure operating system now has a choice with the Bittium Tough Mobile™ C, which will allow for the most enhanced and secure mobile communications in today's market."
